Seat stick Extra long Colour red

Model:7702-dr-M

Seat stick extra long and in a colourful red, best suited for persons from 180cm height.

The Flipstick walking aids are an ideal aid for you:

Imagine you are standing in front of a painting in a museum, which you would like to look at at length.

However, you cannot stand indefinitely for health reasons.

Wouldn't it be very helpful to rest and pause while standing and sitting, to let the picture or painting take effect on you?

It's nice that the walking stick with seat from Flipstick is available.

Flipstick Seat Stick black-red
Model:7701-dr
<p>The walking stick with seat from Flipstick is often chosen in a coloured version.</p> <p>In contrast to conventional single-legged walking sticks, which usually only allow the user to sit very low down due to the length of the stick, this walking stick is designed so that you can sit almost standing up. This makes it particularly easy to stand up after a resting phase.</p> <p>To do this, the cane is simply placed on the floor at a slight angle (approx. 10-15 °). This relieves the knee joints and relaxes the thigh muscles.</p> <p>Length as cane 87 cm Seat height approx. 75 cm Cane colour black, seat colour red Dead weight approx. 500gr. max. body weight 120kg suitable for heights from 170 to 180 cm</p>

Seat stick foldable and height adjustable colour black incl. shoulder bag

Model:37706-S

The non-plus-ultra, more is really not possible. This flipstick walking stick opens up unimagined possibilities. It can be used as a walking stick or a sitting stick and is also adjustable. In addition, the folding mechanism means that this stick can be easily stored in the nylon bag provided when not in use. The beautiful black bag is equipped with a zipper and adjustable strap. The smooth zipper allows for quick stowage of the foldable walking sticks. Due to the low weight and the small dimensions of the triangular bag (28 cm length, 25 cm width), the walking stick can also be carried as hand luggage on trips.

Length of the cane can be adjusted from 87-91 cm

seat height can be adjusted from approx. 75-80 cm

Walking stick all-terrain foot Beach attachment for sandy, boggy soils for walking sticks

Model:FL108201

Plastic spike plate, the off-road attachment for soft and boggy forest soil, only suitable for tube diameter 19mm

Now nothing stands in the way of a walk on the beach, a mudflat hike or a forest walk off the beaten track.

With the all-terrain foot as a plug-in attachment to your walking stick, you are now independent even off-road and on soft ground.

The walking stick attachment can be helpful for example

on sandy beaches

on mudflats

in muddy terrain

and on all other soft surfaces where the normal walking foot would sink in.

This spike attachment is excellent for beach, mudflat and forest walks.

Do not use in the mountains on stony, hard ground and on frozen ground

suitable for walking sticks with D=19mm or for our Flipstick sitting stick suitable for the following models:

7701 standard

7702 extra long

7801 extra short

Model:17801-s

Deciding on a standing aid among the multitude of sitting and standing aids is difficult.

This is not the case if you are looking for a sitting chair or cane on which you can sit comfortably and which you can also use as a practical walking stick.

No more getting up after sitting for a long time in a low position.

No more aching joints or exhausted muscles. Take the strain off your weight, joints or muscles by adopting a so-called sit-stand position.

The walking and hiking stick from activera is simply moved from the vertical to the horizontal position as needed by the pressure mechanism.

The seat is folded out and immediately locks into place.

This means that the short-term standing aid is immediately ready for use when visiting museums, sightseeing, at concerts or on hikes. No cumbersome assembly No heavy chair that you have to carry with you

This cane with seat from activera will also inspire you. Inexpensive, multifunctional and lightweight.

Three unbeatable advantages for more fun while walking, sitting and strolling.

The length of the cane is 82 cm, the seat height approx. 70 cm, neutral and suitable for every occasion in the colour black.

The tare weight is approx. 500gr., the permissible body weight is 120 kg.

Suitable for body heights from 160 to 170 cm.

Material: stick aluminium and seat plastic.

Scope of delivery:

1 seat stick,

1 plastic spike for sandy, boggy ground plastic .

Further models and colours as well as special sizes are available on request or ask for the activera product catalogue. A brand product from activera® - Always a good idea

Flipstick seat stick green

Model: 7701-gr

The Flipstick sitting and walking stick is often used as a hunter's stick or hunter's seat. In contrast to conventional one-legged sitting sticks, which usually only allow the user to sit very low down due to the length of the stick, this sitting stick is designed so that you can sit almost standing up. This makes it particularly easy to stand up after a resting phase.

To do this, the cane is simply placed on the floor at a slight angle (approx. 10-15 °). This relieves the knee joints and relaxes the thigh muscles.

Technical data:

- Length as stick 87 cm
- seat height approx. 75 cm
- colour: green
- Dead weight approx. 500gr.
- max. body weight 120kg
- suitable for heights from 170 to 180 cm

The length of the walking sticks can, if necessary, be adjusted by the user with a standard metal saw.

Ice claw and ice spike for walking sticks from 16 to 22mm
Model:AC146600
<p>With the ice claw as an ice spike, you can now also walk with crutches and walking sticks in winter without the risk of slipping. This is because the walking stick spike and ice attachment ensures a secure grip on the stick with its 5 spikes. This ice claw differs from other walking stick attachments for winter in that the winter attachment can be conveniently folded up when entering ice-free areas or living spaces. Another advantage of this ice claw is its easy installation Suitable for tube diameters 16 mm to 22 mm</p>
11,95 EUR incl.19% VAT plus shipping costs

Seatstick accessories

Walking stick all-terrain foot Beach attachment for sandy, boggy soils for walking sticks

Model:FL108201

Plastic spike plate, the off-road attachment for soft and boggy forest soil, only suitable for tube diameter 19mm

Now nothing stands in the way of a walk on the beach, a mudflat hike or a forest walk off the beaten track.

With the all-terrain foot as a plug-in attachment to your walking stick, you are now independent even off-road and on soft ground.

The walking stick attachment can be helpful for example on sandy beaches

on mudflats

in muddy terrain

and on all other soft surfaces where the normal walking foot would sink in.

This spike attachment is excellent for beach, mudflat and forest walks.

Do not use in the mountains on stony, hard ground and on frozen ground

suitable for walking sticks with D=19mm or for our Flipstick sitting stick suitable for the following models:

7701 standard

7702 extra long

7801 extra short

7703 foldable

single packed

Price per piece

Attention:

Cannot be used on icy or snow-covered roads and paths.

Please use the separately available ice claw.

Do not use in the mountains on stony, hard ground or on frozen ground.

Before use, please remove the rubber attachment which is mounted on the seatsticks for production reasons.

Price per piece
